(ICMR Contribution Series, No. ICMR-93-04)

The research on which the report is based was financed, in part, by the United States Environmental Protection Agency and the North Carolina Department of Environment, Health, and Natural Resources, through the Albemarle-Pamlico Study. Additional support was provided by the U.S. Department of the Interior, Fish and Wildlife Service, under the Wallop-Breaux Amendment to the Sport Fish Restoration Act.

Contents of the publication do not necessarily reflect the views and policies of the United States Environmental Protection Agency, the North Carolina Department of Environment, Health, and Natural Resources, nor does mention of trade names or commercial products constitute their endorsement by the United States or North Carolina governments.
